

BRINGING THE NEXT GENERATION OF MILITARY TRAINING TO THE FIELD

Immediate access to updated training materials and equipment guidelines are critical to mission success in the field. The Edge™ combines an e-reader, netbook, notepad, audio/video recorder and player to enable knowledge access in theater. Optional CAC and Mag card readers to enhance personal and enterprise security.

From instructor-led training components to step-by-step maintenance checklists, The Edge™ eliminates the field challenges and time delays that often hinder online training.

E-reader support for ePub files and PDFs with built-in note taking functionality thanks to e-Ink® technology

Durable hinge that allows the unit to be opened, swiveled and displayed at any angle to fit individual user preferences

Full-color touch-screen netbook running the Google® Android® system
