

Headquartered in Vienna, VA, Criterion Systems, Inc. is a leading provider of information technology services to Government and commercial clients.

Criterion Systems has relationships with leading technology solutions in the world such as Microsoft, IBM, Citrix, VMware, Access Data, and others.

Criterion has a strong history of delivering some of the most innovative and cost effective process and technology solutions in the marketplace today.

Criterion Systems, Inc. provides high-end information technology services with a focus on legacy technology solutions and leading technologies such as high performance computing solutions and next generation web initiatives. Criterion delivers full life-cycle consulting services that include business and technology strategy, systems integration solutions, and managed services. Criterion's approach combines best of breed solutions to create highly repeatable models across various market verticals. Our core practice areas include:

Cyber Security, Forensics and Monitoring

Criterion offers world class Cyber Security Services with an elite team of professionals who help clients identify, mitigate and manage complex cyber risks. Through strategic and tactical approaches to Cyber Security, we enable clients to optimize protection of their IT investment. Offerings include:

- **Cyber Assessment**—Return on Security Investment Analysis (ROSI), cyber forensics, and vulnerability testing
- **Risk Management**—incident response, insider threats and privacy
- **Cyber Ops**—network architecture/engineering, security infrastructure/implementation, defensive cyber ops and monitoring
- **Cyber Advisory Services**—strategy, regulatory & compliance, and awareness training and education

High Performance Computing Solutions

Our solutions are built on green, high performance, and highly compact computing platforms. We have partnerships with some of the largest global software solutions providers and component manufacturers worldwide. The result is a set of highly tuned, unique, special purpose, super computing solutions that give clients:

- An appliance platform that is a dense, portable, green, supercomputer.
- Software implementations that are pre-configured, optimized and secure @ the edge.
- Streamlined implementations for a seamless customer experience.
- Reference architectures with well defined pre-packaged solutions that force multiply implementation services.
- Solutions that reduce the total cost of ownership.

Information Discovery & Search

Criterion is partnered with FAST, a subsidiary of Microsoft, the global leader and provider of enterprise search technology. Criterion delivers:

- Highly cleared personnel that provide FAST ESP and RetrievalWare solutions to the Federal Government.
- An Information Discovery/Search appliance that transforms data into information and integrates video throughout online environments.

Microsoft Solutions

As a certified Microsoft Gold Partner, Criterion delivers the ability to enhance IT value to your business through secure, scalable and proven Microsoft-based solutions.

- Leverage our vital relationship with Microsoft to understand, collaborate and continuously optimize your IT strategy.
- Criterion is a steadfast partner with Microsoft in the Federal market, particularly the Intel community.

Strategic Advisory Services

Criterion offers world class strategic advisory services to our clients in several specialty areas. Our highly regarded team of senior executives has deep domain experience delivering:

- **ROSI**—Return on Security Investment Analysis. This review allows decision makers to identify how much additional security and how much risk is mitigated for a given investment.
- **CFIUS**—Committee on Foreign Investment in the United States Review. Based on our CFIUS expertise, Criterion has a proven methodology for mitigating technology IP ownership issues for foreign-owned companies selling to the U.S. Government.
- Analysis of Alternatives
- Business Case Analysis
- Strategic Planning and Organizational Development

Our Commitment

Criterion Systems is steadfast in our commitment to on-time and on-budget delivery of high quality and effective technology solutions, consulting services, and project management designed to meet the specific needs of our clients.
