Originally from the Dominican Republic Acta Managed his native team at the 2006 World Baseball Classic where they reached the final four.

The common theme among the Emerging Growth CEOs is how key professional mentors have played a role in their current successes.

"The Emerging Growth program is about celebrating growth, which cannot be done without the help and support of others. Whether it is a parent, business partner, or previous employer, we see the value and impact these individuals have and feel privileged to be part of the celebration of how far these CEOs and their companies have come," says Publisher, Craig Burris.

Washington SmartCEO magazine is a regional "growing company" publication. *SmartCEO* believes that a "growing company" is really determined by the spirit, drive and dynamics of a company's owners and managers, rather than by the size of its building, the number of its employees, or its sales volume. That's why our focus is on decision makers from many different-sized businesses. Each month, a variety of businesses in the greater Washington and greater Baltimore areas turn to our pages for features, case-study advice and trend analysis, all with a uniquely local flavor.

These readers range from younger, dynamic companies, to established multi-generational, family-owned
